Dom Cobb is a skilled thief, the absolute best in the dangerous art of extraction: stealing valuable secrets from deep within the subconscious during the dream state, when the mind is at its most vulnerable. Cobb's rare ability has made him a coveted player in this treacherous new world of corporate espionage, but it has also made him an international fugitive and cost him everything he has ever loved.

Now Cobb is offered a chance at redemption. One last job could give him his life back but only if he can accomplish the impossible: inception. Instead of the perfect heist, Cobb and his team of specialists have to pull off the reverse: their task is not to steal an idea, but to plant one. If they succeed, it could be the perfect crime.

Christopher Nolan delivers a visual and narrative triumph. The layer-by-layer dream mechanics are executed with surgical precision and Hans Zimmer's musical score elevates every scene.

"Incredible Visual Effects and Concept"

Extremely fast-paced and complex. Requires complete focus from start to finish. The hallway rotating fight scene remains one of the best practical effects in movie history.
